

SGGS Institute of Engineering and Technology, Vishnupuri, Nanded

In Semester Examination-II (Semester-I) 2025-26

S.Y. B. Tech

Department: BSHM

Sub.: Introduction to German Language

Subject CODE: OE-IS-GL201

Date: 17/10/2025

Time: 14.30 - 15.15

Max. Marks: 20

Note: i. Attempt all questions

iii. Use of non-programmable calculators is permitted.

ii. Assume suitable data if necessary

iv. This paper contains 1 page.

Q.1	Questions	Marks	CO	BT
a	Answer the following in German. 1. Was ist Ihr Bruder Name? 4. Wieviel haben Sie Onkel? 2. Woher kommen Sie? 5. Was ist Ihre Geburtstag? 3. Welche ist das Datum Heute? 6. Heissen Sie Rahul Sharma?	6	CO2	BT1
b	Write the following times in German. A] 8:15: _____ B] 6:50 _____ C] 1:30: _____ D] 12:45: _____ E] 2:00: _____	5	CO4	BT3
c	Translate the Following Questions into German. 1. What do you do by profession? 4. Do you Learn German? 2. When were you born? 5. What is your worktime? 3. Which months are in Winter? 6. Which is your favorite Month?	6	CO5	BT6
d	Translate into English: 1. Motorrad 4. Der Regenschirm 2. Hell-Blau 5. Die Jacke 3. Arbeitgeber 6. Kino.	3	CO3	BT1

Course Outcomes (CO)

CO1: understand the basic info about Germany for job/ higher education

CO2: understand basic German Alphabets.

CO3: know additional symbols and alphabet combinations.

CO4: Learn German phonetic rules and exceptions

CO5: learn basic vocabulary, grammar, and self-introduction in German

Bloom's Taxonomy (BT)

BT1- Remember, BT2- Understand, BT3- Apply, BT4- Analyze, BT5- Evaluate, BT6- Create

Shri Guru Gobind Singhji Institute of Engg. & Technology, Vishnupuri, Nanded-431606.

Department of BSHM

In-Semester Examination II

Academic Year: 2025-26 (Semester III)

Class: SY

Course: Indian Society

Course Code: OE-IS-PC201

Date: 17.10.2025

Time: 14:30 to 15:15

Max. Marks: 20

Note:

- Assume suitable data whenever necessary and state it clearly.
- Mobile phones and programmable calculators are strictly prohibited.
- Exchange/Sharing of stationery, calculator etc. not allowed.
- Figures to right indicate full marks.
- The symbols carry usual meaning.

Q.N.		Marks	CO	BT
	Answer ANY TWO of the following questions. (100 Words)			
Q.1	a "Gender equality is not a women's issue—it is a human issue." Relate in the Indian context. (100 words)	5	CO1	BT1
	b Explain the measures taken by Government of India undertaken to promote social justice and equality for Scheduled Castes, Scheduled Tribes, and Other Backward Classes? (100 words)	5	CO2	BT2
	c Identify the objectives of India's reservation policy. To what extent has it succeeded in achieving social and educational equality?	5	CO3	BT3
	d Analyze how Indian customs and traditions reflect the country's cultural diversity and continuity. (100 words)	5	CO4	BT4
	Answer ANY ONE of the following questions. (150 Words)			
Q.2	a Festivals are the living symbols of India's civilizational heritage." Evaluate (150 words)	10	CO5	BT5
	b Discuss how globalization has influenced social institutions such as family, marriage, and education in India. (150 words)	10	CO4	BT6

=== ALL THE BEST ===

Bloom's Taxonomy (BT)

BT1 - Remember, BT2 - Understand, BT3 - Apply, BT4 - Analyze, BT5 - Evaluate, BT6 - Create

Course Outcomes:

	On successful completion of this course, students should be able to:
CO 1	To grasp fundamental concepts of Indian Society and the structure of the Indian Society.
CO 2	To recognize the significance of the Basic Principles of Indian Society and its impact on daily life.
CO 3	To utilize contextual knowledge to evaluate and address societal issues.
CO 4	To relate course topics to contemporary national and societal issues, enhancing their effectiveness in multidisciplinary settings.
CO 5	To develop the skills and mindset necessary for independent and lifelong learning.

Class: SY

Course: General Spanish- 1

Course Code: OE-IS-SL201

Date: 17/10/2025

Time: 14.30 to 15.15

Maximum Marks: 20

- I. Escribe la **conjugación** del siguiente verbo con todos los sujetos:
(Write the **Conjugation** of the following verb with all the Subjects:)

(6 Puntos)
(6 Marks)

Aprender

- II. Escribe el **plural** de las siguientes palabras:
(Write the **plural** of the following words.)

(5 Puntos)
(5 Marks)

a. La forma: -----

d. El campus: -----

b. El pez: -----

e. El producto: -----

c. El plan: -----

- III. Escribe el **femenino** de las siguientes palabras:
(Write the **feminine** of the following words.)

(5 Puntos)
(5 Marks)

1. El turista: -----

4. El secretario: -----

2. El marido: -----

5. El director: -----

3. El yerno: -----

- IV. ¿Qué significan las siguientes palabras en **inglés/español**?
(Write the **meaning** of the following words in English/Spanish.)

(2 Puntos)
(2 Marks)

a. Summer: -----

b. Primavera: -----

c. Orange: -----

d. Blue: -----

- V. Escribe los siguientes numerales en **palabras**:
(Write the following numbers in words in Spanish:)

(2 Puntos)
(2 Marks)

a) 62: -----

b) 75: -----

c) 98: -----

d) 83: -----

Shri Guru Gobind Singhji Institute of Engg. & Technology, Vishnupuri, Nanded-431606.
Department of BSH&M

In-Semester Examination II

Academic Year: 2025-26 (semester I)

Class: S.Y B.Tech.

Course: Communication and
Professionalism

Course Code: OE-IS-EN201

Date: 17.10.2025

Time: 02:30 to 03:15

Max. Marks: 20

Note:

- Assume suitable data whenever necessary and state it clearly.
- Mobile phones and programmable calculators are strictly prohibited.
- Exchange/Sharing of stationery, calculator etc. not allowed.
- Figures to right indicate full marks.
- The symbols carry usual meaning.

Q.N.	Attempt <u>any two</u> of the following questions	Marks	CO	BT
Q.1	What are the principles which make oral report successful and effective?	10	CO1	BT1
Q.2	Explain the importance of listening and write a note on types of listening?	10	CO4	BT2
Q.3	Wanted a plant Manager at our new factory in Ghaziabad. Engineering Graduates with minimum 5 years' experience in manufacturing industries as Plant Managers can. Apply with particulars to Box. 650, The Hindu, Chennai – 600004	10	CO2	BT3

== ALL THE BEST ==

Bloom's Taxonomy (BT)

BT1 - Remember, BT2 - Understand, BT3 - Apply, BT4 - Analyze, BT5 - Evaluate, BT6 - Create

Course Outcomes:

	On successful completion of this course, students should be able to:
CO 1	To provide knowledge and skills of professionalism in communication.
CO 2	Develop capabilities of technical writing, documentation and public speaking techniques
CO 3	Provide students with effective structuring and effective presentation requisite for professional engineer.
CO 4	To encourage students acquire knowledge application aptitude to negotiate, conflict resolution, analytical abilities, self-initiated learning, interpersonal skills, work smoothly for successful professional context.
CO 5	Develop and imbibe the leadership qualities in order to take higher studies, entrepreneurship, and administrative exposure for social welfare.

Shri Guru Gobind Singhji Institute of Engineering
and Technology, Vishnupuri, Nanded- 431606.

Exam: Inter Semester Examination - II (2025 - 26 Sem-I)

Class: S. Y. B. Tech

Department: Mathematics

Course Code and Name: OE-IS-MD201, Foundation of Data Science

Day and Date: Friday, 17/10/2024

Time: 14:30 - 15:15

Maximum Marks: 20

1. All questions are compulsory.

2. Calculators are allowed.

Question 1) Attempt any three of the following. [CO2] (06 marks)

1. State the addition principle and multiplication principle. [BT1]
2. How many nonempty different collections can be formed from five (identical) apples and eight (identical) oranges? [BT5]
3. How many ways are there to arrange the twelve letters in the word "ARRANGEMENTS"? How many of arrangements have the S somewhere before the G and the two R's grouped consecutively? [BT5]
4. A committee of k people is to be chosen from a set of seven women and four men. How many ways are there to form the committee if (a) The committee consists of three women and two men?
(b) The committee has four people and at least two are women? [BT5]

Question 2) Attempt any two of the following. [CO2] (06 marks)

1. What fraction of all arrangements of INSTRUCTOR has (a) Three consecutive vowels?
(b) Two consecutive vowels? [BT5]
2. What is the probability that a 4-digit campus telephone number has one or more repeated digits? [BT5]
3. How many different ways are there to select 10 hot dogs from four varieties of hot dog? How many ways are there if at least one hot dog of each variety is selected? [BT5]

Question 3) Attempt any two of the following. [CO2] (08 marks)

1. How many integer solutions are there to the equation $x_1 + x_2 + x_3 + x_4 + x_5 = 25$, with $x_i \geq 0$? How many solutions with $x_i \geq 1$? How many solutions with $x_1 \geq 3, x_2 \geq 4, x_3 \geq 1$? [BT3, BT5]
2. A warlock goes to a store with Rs.50 to buy ingredients for his wives Witch's Brew. The store sells bat tails for Rs.1 apiece, lizard claws for Rs.1 apiece, newt eyes for Rs.25 apiece and calf blood for Rs.20 a pint bottle. How many different purchases (subsets) of ingredients will Rs.50 buy? [BT5]
3. How many ways are there to distribute five identical oranges and 5 distinct apples (each a different variety) into five distinct boxes? In what fraction of these distributions does each box get exactly two objects? [BT3, BT5]

Bloom's Taxonomy:

BT1: Remembering

BT2: Understanding

BT3: Applying

BT4: Analyzing

BT5: Evaluating

BT6: Creating

Course Outcomes:

CO1: Describe the basics of sets and analyze different types of relations and functions on sets.

CO2: To equip students with problem-solving skills using substitution method, characteristic method, generating function method, and principle of inclusion and exclusion.

CO3: Distinguish between discrete time Markov chain and continuous time Markov chain.

CO4: Apply various tools to implement different optimization methods.

**Shri Guru Gobind Singhji Institute of Engineering and Technology,
Nanded**
Department of BSH&M(Mathematics)
In-Semester Examination I, Academic Year: 2025-26, Sem-I.

Class: FY B.Tech.	Subject: M-II (Multivariable Calculus, Partial Differential Equations, Laplace Transforms)	Subject Code: BSC104
Date: 17.10.2025	Time: 16:30 to 17:15	Max. Marks: 20

Note: Calculator is not allowed.

Q.1	Attempt any four	Marks	CO	BT
a	Find the partial derivatives $\frac{\partial f}{\partial x}, \frac{\partial f}{\partial y}, \frac{\partial f}{\partial z}, \frac{\partial^2 f}{\partial x^2}$ & $\frac{\partial^2 f}{\partial x \partial z}$ for the function $f(x, y, z) = yz \ln(xy)$	05	CO1	BT1
b	If $z = \sin(xy) + x \sin y$, $x = u^2 + v^2$ & $y = uv$ then evaluate $\frac{\partial z}{\partial u}$ & $\frac{\partial z}{\partial v}$ by using chain rules.	05	CO1	BT1
c	If $f(x, y, z) = \frac{x}{y} - yz$ & $p_0(4, 1, 1)$ is a point then determine, i) the directional derivative of f at p_0 in the direction of $\vec{u} = 2\vec{i} - \vec{j} + 2\vec{k}$ (ie $(D_{\vec{u}}f)_{p_0}$). ii) the direction in which the function increases most rapidly at p_0 .	05	CO1	BT2
d	Find equations for the tangent plane and normal line at the point p_0 on the surface given by $x \ln y + 2y \ln z - x = 0$, $p_0(2, 1, e)$.	05	CO2	BT2
e	Find all the local maxima, local minima and saddle points (If any) of the function $f(x, y) = x^3 + 3xy^2 - 15x + y^3 - 15y$.	05	CO2	BT1

BT1 - Remember, BT2 - Understand, BT3 - Apply, BT4 - Analyse, BT5 - Evaluate, BT6 - Create

Course Outcomes:

	On successful completion of this course, students should be able to:
CO 1	Understand and compute limits, continuity, partial derivatives, directional derivatives, and total derivatives of multivariable functions.
CO 2	Apply the concepts of tangent planes, normal lines, and use optimization techniques including maxima, minima, saddle points, and Lagrange multipliers in multivariable contexts
CO 3	Compute double and triple integrals in Cartesian and polar coordinates, and apply them to calculate area, volume, centre of mass, and gravity for engineering problems.
CO 4	Evaluate scalar and vector line and surface integrals, and apply Green's, Gauss's, and Stokes's theorems in vector calculus.
CO5	Construct Fourier series for periodic and half-range functions and solve partial differential equations (PDEs) such as the wave and heat equations using separation of variables, Fourier series, and D'Alembert's method.
CO6	Apply Laplace transforms and their properties (including inverse and convolution theorem) to solve ordinary and partial differential equations in engineering applications.
